PROFILE SUMMARY

Innovative Software Developer with experience in full-stack development. Proficient in building REST APIs using Node.js and creating dynamic Frontend with React.js.

PROFESSIONAL EXPERIENCE

Inflexion Analytics, Software Developer

📅 June 2023 – Present 📍 Bangalore, India

- Spearheaded the entire frontend development of a PowerBI Report Automation web application, while also contributing to backend development.
- Implemented critical frontend features including secure login or registration systems, robust authentication mechanisms, and efficient CRUD operations.
- Developed backend APIs and provided crucial support to the backend team, demonstrating adaptability across the full stack development.
- Innovated by integrating PowerBI API to enable automatic report exports with customizable filters, significantly enhancing project functionality and user experience.

TRAINING

FunctionUp, Backend Developer Trainee

📅 June 2022 – Oct 2022

- Trained as a Backend developer. Learnt Node.js, Express and MongoDB and implemented the concepts in live projects.
- Understanding of REST APIs with different HTTP methods, GET, POST, PUT and DELETE.
- Worked as a TA in Function Up and participated in resolving queries and project evaluation.
- Arranged multiple sessions on knowledge sharing.

SKILLS

JavaScript TypeScript React.js Node.js Material UI
Express MongoDB REST APIs Docker HTML5 CSS3
AWS S3 Redis MySQL PostgreSQL Docker JSON
Google Cloud Power BI APIs Data Structure and Algorithms
OAuth JWT VS Code Postman Git JMeter Jira
MS Office PgAdmin

SOFT SKILLS

Hard-Working Team-Work Time Management Flexibility
Self-Motivation

PROJECTS

PBI Flow - Power BI Automation Tool

- Established a seamless connection with PowerBI reports, enabling real-time data visualization and analysis
- Innovatively introduced a feature allowing automatic export of PowerBI reports
- Implemented customizable filters to facilitate precise data extraction, catering to the unique needs of each client.

E-Comm Store

- Web application has sign up and sign in functionality and uses JWT authentication.
- Add to cart functionality using REST API.
- Checkout page will added with Product and Price Subtotal.
- Features includes Paytm gateway integration, SMTP - mail verification.
- Tech Stack: JavaScript, Node, MongoDB

Blogging Site

- Users can write blogs and read other blogs by creating their account.
- Quora and Medium are the best example for this project.
- Tech Stack: JavaScript, Node, MongoDB

EDUCATION

M.Sc. in Computer Science

Pondicherry University

📅 June 2022

CGPA: 9.08

Bachelor of Computer Application

Nalanda College

📅 Dec 2020

Percentage: 73.75

CERTIFICATE

ADCA (Advanced Diploma in Computer Application)
